Masonry/Concrete

Description

Candidate is to perform skilled masonry work for maintaining and new construction projects.

Responsibilities

- Must follow ALL OSHA, company, and job site safety rules
- Must perform work in a safely, timely, and quality manner that meets or exceeds the satisfaction of the company
- Prepare worksites for concrete footings and assemble concrete forms on specified locations
- Bend, form, tie, and install rebar as illustrated in original blueprints or plans
- Mold expansion joints and edges, using edging tools, jointers, and straightedge
- Align, build, and erect different types of concrete structures and foundations
- Mix substances or compounds needed for work activities
- Spread, level, and smooth concrete, using rake, shovel, hand or powered trowel, hand or powered screed, and float
- Finish concrete surfaces
- Apply sealants or other protective coatings
- Restore or waterproof existing concrete structures by using appropriate compounds and sealants
- Operate jackhammers and drills to break up concrete or pavement
- Must be able to follow instructions from the foreman/supervisor

Qualifications

- Ability to do physical labor and other strenuous physical tasks
- Must be able to lift and carry 50 lbs
- Must be punctual and reliable
- Must be able to climb multiple flights of stairs and occasional ladders
- Must be willing to work after hours and weekends when needed
- Must be able to apply common sense of understanding to carry out instructions in writing and verbal form
- Must be able to work well with others in a team environment and under the guidance of the foreman
